

# Manual Enhancements Guidelines - Attributes

## Overview

Seller website will contain category specific attributes relating to the product. Our aim is to replicate the details from the seller website to the designated fields on the page, or alternatively use the drop down (if applicable) to correctly identify the correct label.

## Instructions

1. Please click the link to the seller website. This should be displayed under "Product URL"
2. From the response of the link, please select one of the following labels from the list below:

QUESTIONS

If the selection is "Can Label - 1" Please continue with the following instructions:

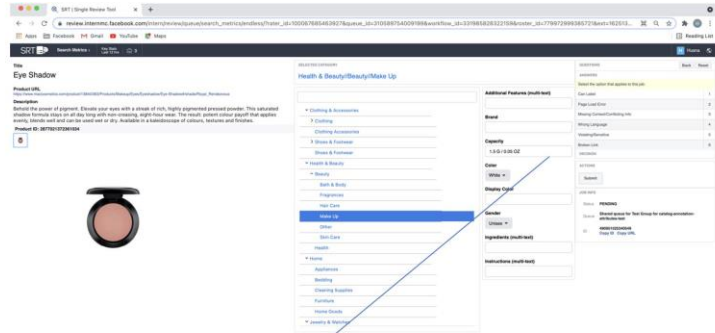

- The seller website should be directed to a specific product. This product will be shown in the SRT job. If anything other than the product in the SRT job, please select the following label. **Missing context/Conflicting info - 3**
- If the product in the job matches that of the seller website. Please follow the example below.

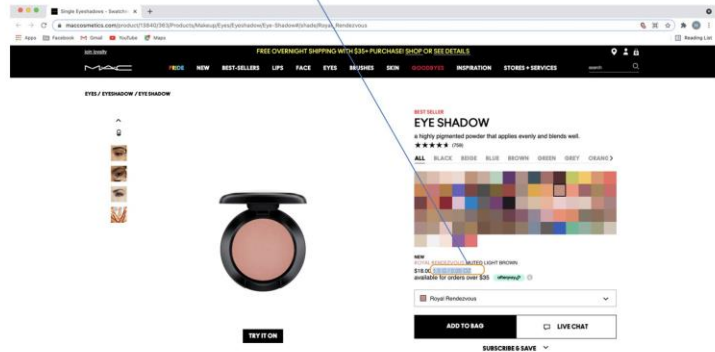

Please select the appropriate category from the list.  
If you are unsure of the category, please make an educated guess as to what the product would fall under by referring to the seller website.

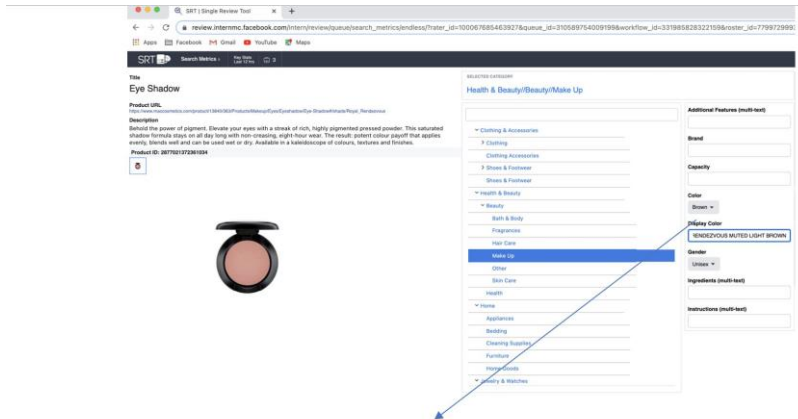

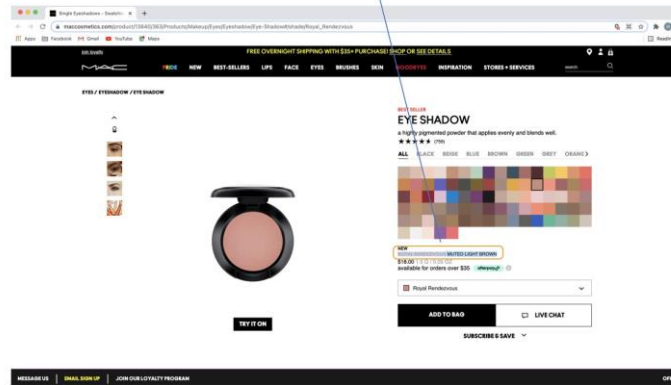

The capacity should be located under the description of the product or alternatively you may need to scroll down on the website page to find it.

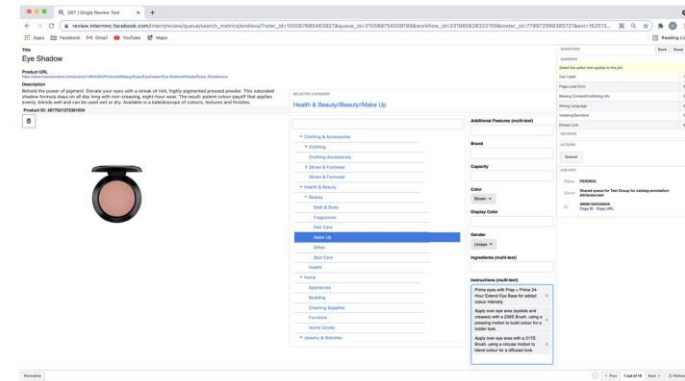

Please select a colour from the drop-down list shown. If the exact colour is not shown, please select the closest one. If there are multiple colours shown, please select **multi-colour** from the list.  
In the field below please **copy + paste** the exact colour/s shown on the seller website.

Please locate the ingredient list on the seller website and **copy + paste**.

Instructions should be displayed on the seller site. This can be under the heading **instructions/recommended usage/how to use.**
